NLCA Newsletter, July 2025

Want to hear more?

The NLCA is part of the National Cancer Audit Collaborating Centre (NATCAN). If you want to find out more about NATCAN visit our [new website](#). If you would like to receive regular updates send us an email NATCAN@rcseng.ac.uk

July data dashboard

The next update to the NLCA interactive [data dashboard](#) is due to be published on the NLCA website on **10th July 2025**. The July quarterly data dashboard includes more recent data: patients in England diagnosed up to 30 September 2024. The July dashboard includes two data quality dashboards: one presents data quality over time and the other reports a data quality snapshot. In addition, users can now select results for two different healthcare provider levels: NHS trust or cancer alliance and can also download a quarterly report for both. We hope you find this useful, and we welcome any feedback from users to help us refine the dashboards further.

Patient leaflet

The NLCA has produced a new resource for patients. This resource provides a list of possible questions for patients to ask their healthcare professionals upon receiving a diagnosis of lung cancer. Please take a look [here](#) at the leaflet which is available on our website. We would like to acknowledge and thank members of the NLCA Patient and Public Involvement Forum for their help and support creating this document.

The NLCA is now on [Bluesky](#) and [LinkedIn](#).
Follow us for audit updates!

NLCA/BTOG webinar

On 15th May 2025, the NLCA Project Team delivered its second webinar with BTOG, presenting results of the State of the Nation Report 2025, and highlighting recent innovations in reporting, including the interactive data dashboards and 'early signal reporting'. For those who attended, we hope this was useful. For those who couldn't make it, you can watch the webinar on our website [here](#).

BTOG-NLCA Webinar: State of the Nation 2025 > BTOG-NLCA Webinar: State of the Nation 2025

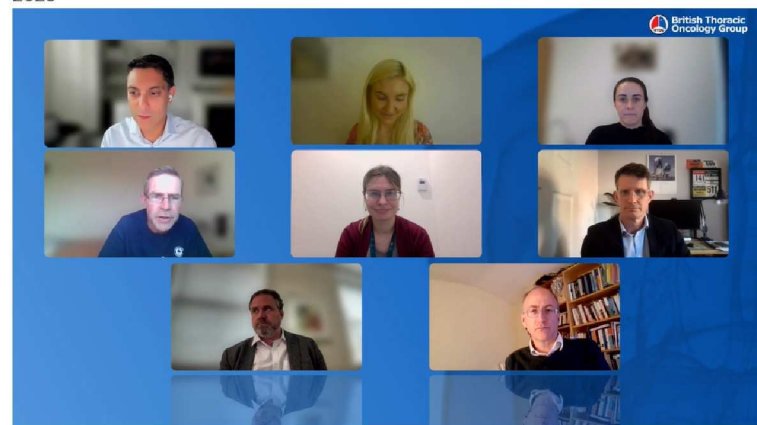

BTOG-NLCA Webinar: State of the Nation 2025 > BTOG-NLCA Webinar: State of the Nation 2025

Early signal reporting

- Launched in October 2024
- Quarterly reporting
- Trends over time
- Detecting NHS trusts whose performance has recently changed
- Detecting NHS trusts whose performance is different to the national average
- Contact clinical lead in trust
- Stimulate local quality improvement
